Measure Students’ Understanding of Technology Concepts and Skills

Get the data you need to identify technology skills gaps and inform instruction. TechLiteracy Assessment measures elementary and middle school students’ word processing, spreadsheet, database, telecommunication, and digital citizenship skills.

Benefits of TechLiteracy Assessment

Confidently test your students with a reliable and psychometrically valid assessment.

Use included pre- and post- tests to pinpoint challenges and inform instruction.

Measure student skills accurately using a blend of interactive and performance-based items.

Get full reports at the district, school, teacher, class, and student levels.
